

Heatmap showing the frequency of amino acids at different peptide positions. The y-axis lists amino acids (A, C, D, E, F, G, H, I, K, L, M, N, P, Q, R, S, T, V, W, Y) and the x-axis lists peptide positions (1 to 9). A color scale on the right indicates frequency from 0.0 (light blue) to 0.9 (dark blue). The highest frequency is observed for Glycine (G) at position 6.
